Child Care Answers Offers Free Services for Local Businesses to Help Employees

Higher quality child care benefits not only the child by providing a safe learning environment, but it also gives parents a peace of mind knowing their child is being properly cared for during their work day. When a company offers their employees services through Child Care Answers they are giving them a tool needed to be more productive at work and worry less about their children.

Corporate Child Care Answers was established to provide support to Central Indiana's business community by offering specialized services to meet the concerns of their workforce. Corporate Child Care Answers provides multiple services to local businesses. Many of these services are completely free. Included in the services are referrals to child care programs that can be obtained through a "free child care" search button placed on the business website, or through a phone consultation with a child care search specialist, training on the components of quality child care, and individualized consultation.

When an employee clicks on the Free Child Care Search button they will be asked to enter their zip code and then they can complete a search for child care based on their individual needs along with educational information to help them make an informed decision about their child care preferences.

Another free service that Corporate Child Care Answers can offer is training to employees. Topics offered include: information on how to navigate and use Paths to QUALITY - the state's quality rating system; Questions to ask a child care provider; Nutritional Meal planning for a busy family; Math at home; Positive Discipline; and Kindergarten Readiness.

To find out how Corporate Child Care Answers can help your business contact Mindy Bennett at 317-631-4643 x 224 or mindyb@childcareanswers.com.
