## **Are you looking for a career change in the new year? Interested in starting up a Child Care? Let Child Care Answers help you with your career change!**

Child Care Answers Resource and Referral Agency is a local agency serving Hamilton, Hendricks, Johnson and Marion County. Child Care Answers offers training for individuals interested in beginning a child care business. Those interested in starting up a licensed center, home or registered ministry can register to attend an orientation class through us. This class will give a general overview of child care in Indiana and resources in the community. Child Care Answers also offers classes to help in advertising your child care business and record keeping. The training calendar is published three times a year and includes upcoming classes offered by Child Care Answers and early childhood education classes in the community.

For licensed child care providers a mentoring program is available to help guide them as they advance levels in Paths to Quality, Indiana's voluntary quality rating system for child care. Classes are also available to help with guidance and discipline, stress prevention for caregivers and Exploring the Foundation to Indiana Academic Standards.
